Back of Rockband Guitar

This Rechargeable NiMH Battery Pack fully replaces the need to constantly change AA Batteries that the RockBand Guitar quickly drains. You won't need to take out this battery; all you just do is connect the cable to charge either during your gaming session or when the game is turned off. The LED indicator on the battery displays the status of the charge. Specifically designed to fit in the battery compartment; just plug into any USB power source to charge while playing or between gigs.
